

### Meeting 3:

Notes for Meeting 3 [2024/08/10 11:15-13:00]:

Members Present: Andre, Stephan, Wimpie, Johan-Louis (Everyone)

Meeting Duration: 1h 45min

Meeting Platform: Discord

What was the meeting about:

We constructed an ERD for our MongoDB database. Although ERD is used with Relational data models and maybe not entirely applicable to a NoSQL platform such as MongoDB, we still think it's a good idea to conceptualise how the structure of the database will look and how the data from each collection are related.

We also collaborated to try and fix the .gitignore file inside our GitHub repository, the file did not function properly and ignore the node\_modules folder.
