

Notes for Meeting 1 [2024/07/30 12:00]

Members Present for meeting: Andre, Stephan, Wimpie, Johan-Louis (Everyone)

Meeting Duration: 12:00 - 13:30 (1h 30min)

Project:

- The HMS application

What the meeting consisted of:

- We discussed the document in depth.

Technologies we aim to use:

- Frontend: Flutter (Can develop for Mobile + Desktop simultaneously)
- Backend: .NET C# (Subject to change)
- Version Control: GitHub
- Database: Firebase and/or MongoDB
- Server: Docker Image (Need to do research which one can be efficient)

What we want to find out?

- Are we allowed to demonstrate the IOS app on an emulator?
- Does the database need to be on a server?
